TABLE OF CONTENTS

To Volume 75, September–December, 1973

BOKLAGE, CHARLES E., EMERY CHUN-TE WONG and VERNON C. BODE, The Lambda F mutants belong to two cistrons 221–230

BOS, MARTEN and W. SCHARLOO, The effects of disruptive and stabilizing selection on body size in *Drosophila*. I. Mean values and variances 679–693

BOS, MARTEN and W. SCHARLOO, The effects of disruptive and stabilizing selection on body size in *Drosophila melanogaster*. II. Analysis of responses in the thorax selection lines 695–708

BOYER, BRADFORD J., DEBORAH L. PARRIS and ROGER MILKMAN, The crossveinless polygenes in an Iowa population 169–179

BRYANT, PETER J. and MICHELLE ZORNETZER, Mosaic analysis of lethal mutations in Drosophila 623–637

BURNS, J. A. and D. U. GERSTEL, Formation of megachromosomes from heterochromatic blocks of *Nicotiana tomentosiformis* 497–502

CARPENTER, NANCY J., Thymidylate synthetase in mutants of *Drosophila melanogaster* 113–122

CHANG, SHENG-YUNG and CHING KUNG, Genetic analyses of heat-sensitive pawn mutants of *Paramecium aurelia* 49–59

CHOVNICK, ARTHUR, Gene conversion and transfer of genetic information within the inverted region of inversion heterozygotes 123–131

COLOFIORE, JOSEPH, MANFORD K. PATTERSON, JR. and JOHN MORROW, Asparagine-requiring tumor cell lines and their non-requiring variants: cytogenetics, biochemistry and population dynamics 503–514

CULBERTSON, MICHAEL R. and SUSAN A. HENRY, Genetic analysis of hybrid strains trisomic for the chromosome containing a fatty acid synthetase gene complex in yeast 441–458

DENELL, R. E., Homoeosis in Drosophila. I. Complementation studies with revertants of Nasobemia 279–297

DEV, V. G., D. A. MILLER and O. J. MILLER, Chromosome markers in *Mus musculus:* Strain differences in C-banding 663–670

EPP, MELVIN D., Nuclear gene-induced plastome mutations in *Oenothera hookeri*. I. Genetic analysis 465–483

FELDMAN, JERRY F. and MARIAN N. HOYLE, Isolation of circadian clock mutants of *Neurospora crassa* 605–613

FICK, G. N. and C. O. QUALSET, Genes for dwarfness in wheat, *Triticum aestivum* L. .. 531–539

FU, T. K. and E. R. SEARS, The relationship between chiasmata and crossing over in *Triticum aestivum* 231–246

GABAY, SUSAN J. and JOHN R. LAUGHNAN, Recombination at the Bar locus in an inverted attached-X system in *Drosophila melanogaster* 485–495

GHAI, G. L., Limiting distribution under assortative mating 727–732

HANSON, W. D. and R. E. GRIER, Rates of electron transfer and of non-cyclic photophosphorylation for chloroplasts isolated from maize populations selected for differences in juvenile productivity and in leaf widths 247–257

HATCHELL, PATRICIA L. and JAMES W. MACINNES, A quantitative analysis of the genetics of resting blood lactic acid levels in mice 191–198

IKEDA, HIROSHI and HAMPTON L. CARSON, Selection for mating reluctance in females of a diploid parthenogenetic strain of *Drosophila mercatorium* 541–555

IMSANDE, JOHN, Repressor and antirepressor in the regulation of staphylococcal penicillinase synthesis 1–17

KAUFMAN, T. C., S. E. TASAKA and D. T. SUZUKI, The interaction of two complex loci, *zeste* and *bithorax* in *Drosophila melanogaster* 299–321

KIDWELL, MARGARET GALE, J. F. KIDWELL and M. NEI, A case of high rate of spontaneous mutation affecting viability in *Drosophila melanogaster* 133–153

KIMURA, MOTOO and TOMOKO OHTA, The age of a neutral mutant persisting in a finite population 199–212

LARGEN, MICHAEL and WILLIAM BELSER, The apparent conservation of the internal low efficiency promotor of the tryptophan operons of several species of *Enterobacteriaceae* 19–22

LEE, JOSHUA, The inheritance of Gossypol level in Gossypium II: Inheritance of seed Gossypol in two strains of cultivated *Gossypium barbadense* L. 259–264

LEHMAN, JOHN F., MARY K. GLEASON, SANDRA K. AHLGREN and ROBERT L. METZENBERG, Regulation of phosphate metabolism in *Neurospora crassa:* Characterization of regulatory mutants 61–73
LOPPES, R. and R. F. MATAGNE, Acid phosphatase mutants in Chlamydomonas: Isolation and characterization by biochemical, electrophoretic and genetic analysis ... 593–604
NEI, MASATOSHI and WEN-HSIUNG LI, Linkage disequilibrium in subdivided populations 213–219
NEWCOMBE, K. D. and A. J. F. GRIFFITHS, The suppression of *ad-3B* mutants by supersuppressors in *Neurospora crassa* 615–622
NORDSKOG, A. W., W. A. RISHELL and D. M. BRIGGS, Influence of B locus blood groups on adult mortality and egg production in the White Leghorn chicken 181–189
O'BRIEN, STEPHEN J. and RICHARD C. GETHMANN, Segmental aneuploidy as a probe for structural genes in Drosophila: Mitochondrial membrane enzymes 155–167
OU, JONATHAN T. and THOMAS H. WOOD, Kinetics of genetic recombination in *Escherichia coli* K-12: Competition between genetic integration and degradation 579–592
POWELL, JEFFREY R., Selection of enzyme alleles in laboratory populations of Drosophila 557–570
PRAKASH, SATYA, Patterns of gene variation in central and marginal populations of *Drosophila robusta* 347–369
PRAKASH, SATYA, Low gene variation in *Drosophila busckii* 571–576
PRAKASH, SATYA and MAX LEVITAN, Association of alleles of the Esterase-1 locus with gene arrangements of the left arm of the second chromosome in *Drosophila robusta* 371–379
PRYOR, TONY and DREW SCHWARTZ, The genetic control and biochemical modification of catechol oxidase in maize 75–92
RAPPAPORT, HARRIET and ROBERT DEMARS, Diaminopurine-resistant mutants of cultured, diploid human fibroblasts 335–345
RASSE-MESSENGUY, FRANCINE and GERALD R. FINK, Temperature-sensitive nonsense suppressors in yeast 459–464
ROUFA, D. J., B. N. SADOW and C. T. CASKEY, Derivation of TK$^-$ clones from revertant TK$^+$ mammalian cells 515–530
RUTLEDGE, J. J., E. J. EISEN and J. E. LEGATES, An experimental evaluation of genetic correlation 709–726
SAND, SEAWARD A. and HAROLD H. SMITH, Somatic mutational transients. III. Response by two genes in a clone of Nicotiana to 24 roentgens of gamma radiation applied at various intensities 93–111
SCHWARTZ, DREW, The application of the maize-derived gene competition model to the problem of dosage compensation in Drosophila 639–641
SILVERS, WILLYS K. and DAVID L. GASSER, The genetic divergence of sublines as assessed histocompatibility testing 671–677
SING, CHARLES F., GEORGE J. BREWER and BARBARA THIRTLE, Inherited biochemical variation in *Drosophila melanogaster:* Noise or signal? I. Single locus analyses ... 381–404
SLATKIN, MONTGOMERY, Gene flow and selection in a cline 733–756
SLATKO, BARTON E. and YUICHIRO HIRAIZUMI, Mutation induction in the male recombination strains of *Drosophila melanogaster* 643–649
STADLER, DAVID and BEVERLY KARIYA, Marker effects in the genetic transduction of tryptophan mutants of *E. coli* 423–439
SULLIVAN, DAVID T., ROBERT J. KITOS and MARIE C. SULLIVAN, Developmental and genetic studies on kynurenine hydroxylase from *Drosophila melanogaster* 651–661
TIRABY, GÉRARD, JEAN-PIERRE CLAVERYS and MICHEL ARMAND SICARD, Integration efficiency in DNA-induced transformation of pneumococcus. I. A method of transformation in solid medium and its use for isolation of transformation-deficient and recombination-modified mutants 23–33
TIRABY, GÉRARD and MICHEL ARMAND SICARD, Integration efficiency in DNA-induced transformation of pneumococcus. II. Genetic studies of a mutant integrating all the markers with a high efficiency 35–48
TOMASZEWSKI, ELIZABETH, HENRY E. SCHAFFER and F. M. JOHNSON, Isozyme genotype-environment associations in natural populations of the harvester ant, *Pogonomyrmex badius* 405–421
VAN BREUGEL, F. M. A., Cell clustering and pleiotropy in white-variegated eyes and Malphighian tubes of *Drosophila hydei* 323–334
VIG, B. K., Somatic crossing over in *Glycine max* (L.) Merrill: Mutagenicity of sodium azide and lack of synergistic effect with caffeine and mitomycin C 265–277
